EXPERIENCE

Software Engineer
Scita Solutions

📅 Sep 2021 – Present 📍 Bengaluru, KA

- Developed Windows desktop applications using WinForms and CSharp, enhancing user experience and operational workflows.
- Designed role-based UIs with data validation, reporting, and integrated database support using MySQL and Entity Framework.
- Built production and delivery tracking systems, automating processes and reducing manual effort.
- Supported ASP.NET Core and Angular modules, contributing to backend APIs and frontend integration.
- Created Metabase dashboards for real-time analytics and reporting.

Skills

Programming Languages

- Csharp, SQL, HTML/CSS, Bootstrap
- Upskilling: AngularJS, ReactJS

Framwork

- DotNET Framework,WPF (Windows Presentation Foundation),WinForms (Windows Forms) , .Net Core,ASP.NET Framework, MVC Framework

Databases

- Sql Server, MySql, Entity Framework, SQLite

Platforms

- IIS Windows Server

Miscellaneous

- Visual Studio, MySql Workbench,Sql Server Management Studio,VS code, Git, Microsoft Office

General Programming Languages

- C, Python, C++ (Basics)

EDUCATION

BCA. Bachelor of Computer Application
Manipal University-Jaipur

📅 April 2023 – Ongoing

Computer Engineering & Cloud Computing
NTTF

📅 July 2018 – July 2021

- Distinction with First Class : 9.0 CGPA

PROJECTS

Software Developer

- Developed Windows Forms applications using .NET Framework and CSharp, delivering intuitive and user-friendly interfaces.
- Implemented SQLite for efficient and lightweight local database management.
- Applied the Singleton design pattern to ensure controlled instance access and optimized memory usage.
- Integrated .NET Remoting for seamless inter-process communication between distributed application components.
- Collaborated with stakeholders to gather requirements and enhance application performance and maintainability.

Web And Database Developer

- Developed and maintained web applications using ASP.NET MVC and CSharp, ensuring seamless UI and backend integration.
- Built intuitive desktop applications with WinForms to enhance user interaction and operational efficiency.
- Designed optimized MySQL schemas and implemented backend logic using Entity Framework and .NET.
- Utilized Metabase for generating insightful analytics and reports to support data-driven decisions.
